ABOUT TEXTING

Q How do I send a text message to enroll in a Mobile Program?

A Most phones make it very easy to text; however, not all phones work in exactly the same way. You may enroll simply by sending a text message with the corresponding offer details (each offer will have specific directions, i.e. "Text BRAND to 12345.") and following the prompts via text. Generally, you can:

Step 1: Access the main menu on your cell phone

Step 2: In the menu, select the option corresponding to "Messages"

Step 3: Select "Create new message"

Step 4: Enter the message using the letters on the keypad – the body of this message should only be the trigger word, for example: "BRAND"

Step 5: In the recipient field, enter the short code number, e.g. "12345" in the "To" section of the message.

Step 6: To send your completed message, select "Send" or go to message "Options" and select "Send."

Step 7: Confirm that the message has been sent.

You should momentarily receive a text message from the same number. Follow the steps to enroll in the appropriate mobile program. If you do not receive a text message, ensure that all fields are entered correctly.

Q Will I be charged for the text messages I receive from the Program?

A Message and data rates may apply; however, this program is not a premium service and generally does not incur any special fees. Please contact your service provider for details. You may receive four messages a month depending on the frequency of your medical prescription refills.

Q How many total text messages could I receive?

A You will receive some preliminary text messages when you enroll in the program, plus reminders when upcoming prescriptions are due. For the number of message per month or total number you may receive, refer to the terms of your offer.

PHONE ISSUES

Q What happens if my phone is switched off?

A The message will go to your text message in-box and may be deleted after a certain time, depending on your provider. Contact your mobile service provider to find out how long messages are held before they are deleted.

Q Will I receive my mobile program text messages when I'm traveling abroad?

A Yes, but you may have to pay additional charges from your provider to receive messages when traveling abroad. Contact your mobile service provider for more information.

Q What should I do if my mobile number changes?

A If your mobile number changes, you may re-enroll in the mobile program by texting the unique trigger word and short code corresponding to your offer, or any other method you may have originally enrolled.

Q What if I lose my mobile phone or it stops working?

A If you need to replace your mobile phone but your number remains the same, your text messages from our mobile programs should continue without interruption. If you discontinue your mobile service or need to change your number, you may simply re-enroll in the program to receive your messages.

PHARMACY ISSUES

Q What if my pharmacist doesn't know about the mobile program for my offer or won't honor my savings?

A Most pharmacists should be familiar with the electronic savings offers provided by EngagedMedia™ mobile programs and we've worked hard to make as many pharmacists as possible aware of each mobile program. However, some may not yet be familiar with it or how to use it. Simply refer your pharmacist to the corresponding pharmacy instructions found within the text message coupon or offer materials, or have him/her call the 24/7 claims processing phone number associated with the offer. This may be found on either the program materials or the text message(s) containing the offer BIN, PCN, and Group Number. Pharmacist helpline number: 1-800-731-4997
